DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1,3-4,6,8-9,11-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The language like "permitting" or "permission" is definite. It's unclear what Applicant's intended metes and bounds of the claim are, since the claim appears to cover anything and everything that does not prohibit actions from occurring.

Response to Applicant's Arguments

Applicant has argued that the words "permitting" and "permission" in claim 1 is not indefinite and that the term execution permitting unit is the name of hardware and the phrase execution permission for a process refers to giving operation permission to the server device to communicate to the terminal device. In response: Examiner disagree, the word "permitting" is indefinite term as to what applicant's intended metes and bounds of the claim are, since the claim appears to cover anything and everything that does not prohibit actions from occurring and they do not cause any functionality to occur in the computer. Claims 1,3-4,6,8-9,11-12 remain rejected under 35 U.S.C. 112, second paragraph.

Examiner acknowledges submission of new abstract and withdraws objection to the abstract.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing

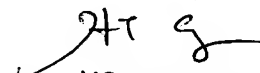

date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
